

MI33PRA/MI33PST

TECHNICAL DATA

Passive Instrument Cables

MI33PRA

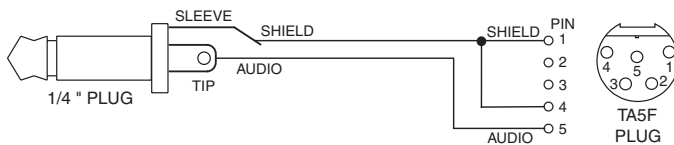

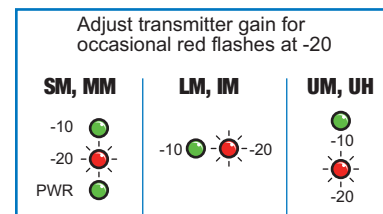

MI33PST

- For use with all transmitters, including IM, LM, UM400, SM Series, SMa Series, LMa and UM400a models
- Passive design for use with very high output instrument pickups such as electric bass guitars with 18 volt systems
- Designed for musicians who demand rugged, high quality equipment and the best sound quality available
- 30 inch overall length

Transmitter Setup Instructions

Start with the input gain on the transmitter at about 10 o'clock. Play at the same level expected during the performance and adjust the input gain until the -20 LED flickers red (indicating +0 dB) during the loudest passages.

Wiring diagram

Other cables available:

MI39ARA and MI39AST

For use with all transmitters, including IM, LM, UM400, SM Series, SMa Series, LMa and UM400a models.
